Warnings

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Touchscreen media player

Loading Files

1. Connect the touchscreen media player to a computer using the **Mini-USB Port** connection and a USB cable (included).

2. Once connected, the unit will show up on the connected computer as if it were a connected USB thumb drive, external hard drive, or memory card.

3. Drag and drop the desired files into the unit's drive location on the connected computer.

4. After the files are loaded onto the unit, right-click on the drive and eject it from the computer, then disconnect the USB cable.

File Compatibility:
Digital audio: MP3, WMA (non-DRM)
Digital video: AVI

Micro SD Memory Expansion Slot

Loading a Micro SD Card

1. Insert a Micro SD Card into the **Memory Card Expansion Slot**.

   The Memory Card Expansion Slot supports Micro SD Cards up to 16GB in capacity.

File Compatibility:
Digital audio: MP3

Playing from the Micro SD Card

1. Follow the instructions for
    Loading a Micro SD Card.

2. Press the MUSIC icon on
    the touchscreen to open
    the music application.

3. Press the on-screen BROWSER
    button and select the CARD DIR.

4. Select the desired music from
    the card directory and use the
    on-screen play controls to begin
    playing the selected music.

Recording Audio

1. Press the RECORDER icon on the touchscreen to open the recorder application.

2. Press the on-screen PLAY/STOP button to start and stop recording.

3. Press the SAVE button to the right of the on-screen PLAY/STOP button to save the recording to the player's internal memory.

Playing Recorded Audio

1. Press the MUSIC icon on the touchscreen to open the music application.

2. Press the on-screen BROWSER button and select the MAIN DIR.

3. From the folder browser select the RECORD folder.

4. Select the desired recording using the touchscreen.

5. Use the on-screen play controls to begin playing the selected recording.

Video Conversion Software

1. Connect the media player to a computer using the included USB cable.

2. Once connected, the video conversion software will open automatically.

3. Use the conversion software to select a video on your computer and convert it to the **AVI** format so it will be playable on the media player.

4. After converting, follow the instructions for <u>Loading Files</u> to load the newly created AVI file to the media player.
